INTRODUCTION

The Responsive College Event Page is a web-based application designed to display college events in a simple, attractive, and organized way. It provides students and faculty with important details such as event names, dates, times, venues, and descriptions.

The main purpose of this project is to make event information easily accessible and reduce the need for manual notices. The responsive design ensures that the page works smoothly on desktops, tablets, and mobile devices.

Overall, this project demonstrates how HTML and CSS can be used to create a user-friendly and responsive platform for sharing college event information.

INPUT CODE

```
<html>
<head>
<title>College Event Page</title>
<style>
  body {
    font-family: Arial;
    margin: 0;
    background-color: yellow
  }
  header {
    background: red;
    color: yellow;
    text-align: center;
    padding: 25px;
  }
  nav {
    background-color:blue;
    padding: 15px;
    text-align: center;
  }
  nav a {
    color: yellow;
    text-decoration: none;
    margin: 15px;
  }
  .banner {
    background-color:red;
    color: yellow;
    text-align: center;
    padding: 40px;
  }
  section {
    padding: 25px;
    text-align: center;
  }
  .box, .speaker {
    background-color: red;
    padding: 20px;
```

```

        margin: 10px;
display: inline-block;
width: 200px;
border-radius: 5px;
    }
    table {
        margin: auto;
        width: 80%;
background-color: red;
    }
    th, td {
        padding: 10px;
border: 1px solid gray;
    }
    th {
background-color: red;
        color: yellow;
    }
    form {
background-color: red;
        padding: 20px;
        width: 350px;
        max-width: 80%;
        margin: auto;
    }
    input, select {
        width: 90%;
padding: 10px;
        margin: 8px;
    }
    button {
padding: 10px 20px;
background-color: yellow;
        color: red;
border: none;
    }
</style>

CONCLUSION:

The Responsive College Event Page provides a simple and effective way to display college events and important event information online. It helps students and faculty easily access details such as event names, dates, times, venues, and descriptions.

The responsive design ensures that the webpage works smoothly on different devices, including desktops, tablets, and mobile phones. Overall, this project demonstrates the practical use of HTML and CSS to create an attractive, user-friendly, and accessible college event webpage.
